Free Motion Freedom!

Quilting Workshop

Feb 27 – March 2, 2022

Free motion quilting: Are you afraid, stuck? Need help designing a quilting plan? Ready to move from “git er done” to “ohhhhh, I love that!”? In this technique-based retreat I’ll help you take your project, quilt it with a personal touch and *enjoy* the process. Free motion quilting should be fun and creative!

Whether you’re a Modern, Contemporary, Traditional or Art quilter, bring your project and we’ll work together to create a quilting plan that you will feel confident and excited about. Don’t have a project? I’ll bring ideas, suggestions and materials along for fun and inspiring projects.

Each day will have a trunk show, demo or lecture to teach and inspire you. We will build on the skills that you already have and explore the possibilities of elevated free motion quilting for your quilts.

I want to help liberate you from your fear of free motion quilting. Let’s spend 3 uninterrupted days together on the beautiful Central California coast.
